

## JADE • 2" HEXAGON

BRILLIANTE is 98% recycled molten glass material, sustainable, and eco-friendly. Some inherent characteristics from standard production include irregular edges, rustic surface, and small variations in size and squareness. These slight size and shape variations can affect the grout joint appearance and enhance the natural aspects of this product. Use constitutes acceptance. You can also expect color variation from production run to production run.

### CUTTING + CLEANING

Use diamond blades designed for cutting glass on a wet saw and a glass coring drill for drilling. Use non-abrasive cleaners only. Avoid acid detergents, chemicals, and other solvents.

### ADHESIVES

For standard wall and wet area installation, we recommend Laticrete Gold 253 and/or Platinum 254. For submerged and/or pool installation, C2 mortar must be used, which includes Laticrete Platinum 254 or Epoxy. Please refer to TCNA handbook for a thorough more specific installation method.

### GROUTING

Glass tile is susceptible to scratching; it's recommended to use a non-sanded, RG and/or Epoxy grout for standard dry and wet area installation. For submerged and/or pool installation, we recommend epoxy based grouts. Please refer to TCNA handbook for a thorough more specific installation method.
